

Identify, Prioritize, and Remediate Security Risks

Managed Security

With increasing threats, stricter compliance requirements, and growing pressure from cyber insurance providers, businesses need a clear and reliable way to stay protected.

Charles IT's Managed Security services provide ongoing protection, risk reduction, and expert support — without the complexity of managing multiple vendors.

Why It Matters

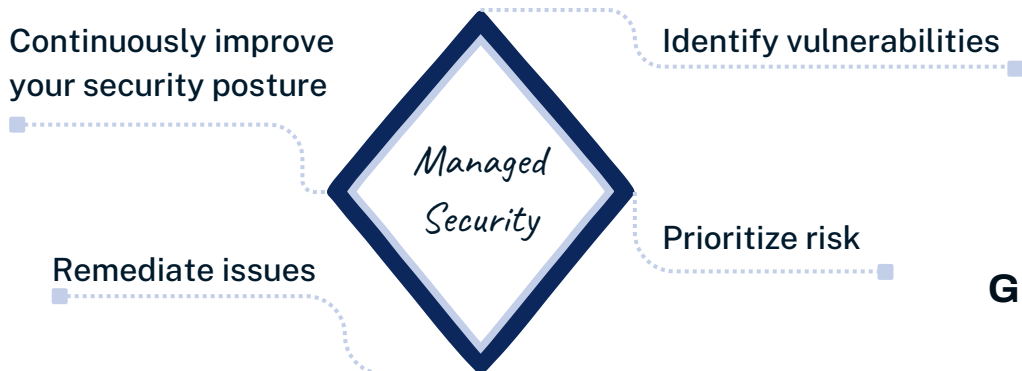

Organizations today face:

- More frequent and advanced cyberattacks
- Compliance requirements like **CMMC**, **SEC**, **HIPAA**, and **SOC 2**
- Increasing cyber insurance standards
- Limited internal security resources

Managed Security helps you stay protected, compliant, and focused on your business.

Our Approach

We take a proactive, structured approach:

- ▶ You get a dedicated security team, clear visibility, and ongoing accountability.

GET AHEAD OF RISK
